

Comma Rules Song

By Tim Pacific

Use commas to separate items in a series of three or more

Use a comma to separate independent clauses as complete thoughts.

When they are joined by these transition words:

and, or, for, nor, so, but, yet

Use commas to separate independent clauses as complete thoughts

From the word or words that introduce the same complete thoughts

Use commas to separate from the rest

of the sentence any word or expression that

is not essential

to the sentence's meaning

10 Grammar Rules Song

By Tim Pacific

These are the 10 rules, 10 rules to conquer, common grammar mistakes.

When two vowels go walking, the first does the talking.

Silent E makes the vowel say its name.

“I” before “E” except after “C” or when sounding like “A”

as in neighbor and weigh.

“An” comes before a word that begins with a vowel.

“A” comes before a word that begins with a consonant.

“Who” or “whoever” is the subject of a verb.

“Whom” or “whomever” is the object of a verb.

“Good” is always used to describe a noun.

“Well” is used to describe a verb.

Try not to end a sentence with a preposition.

Rules to conquer, common grammar mistakes

These are the 10 rules, 10 rules to conquer, common grammar mistakes.

The Great Lakes Song

By Tim Pacific

Huron

Ontario

Michigan

Erie

Superior

Lake Huron is the third largest by volume and second in area.

Lake Ontario has the lowest elevation.

Lake Michigan is the only great lake that is entirely in the United States.

Lake Erie is the smallest by volume and the shallowest.

Lake Superior is bigger than Scotland. It is the largest by volume and the deepest too.

Metric System (Length) Song

By Tim Pacific

Millimeter

Centimeter

Decimeter

Meter

Decameter

Hectometer

Kilometer

The metric system is based on units of ten.

Ten millimeters make a centimeter.

Ten centimeters make a decimeter.

Ten decimeters make a meter.

Ten meters make a decameter.

Ten decameters make a hectometer.

Ten hectometers make a kilometer.

A kilometer is the same as 1000 meters.

The metric system is based on tens.

Simplify a Fraction Song

By Tim Pacific

Find a common factor

of the numerator and denominator

A common factor is number that will

divide into both numbers evenly.

2 is a common factor of 4 and 14.

Divide both the numerator and denominator

by the common factor.

Repeat this process until there are no more common factors.

The fraction is simplified

when no more common factors exist.

(song repeats)

Choice to Make

By Tim Pacific

Sometimes you've got to do things
You don't want to do
Even though you know you should
And in the long run, you'll be glad you did

For what ever reason sometimes
You don't want to do your homework
For what ever reason sometimes
You don't want to study for that next test
Just remember
You've always got a choice to make

Sometimes you've got to do things
You don't want to do
Even though you know you should
And in the long run, you'll be glad you did

For what ever reason sometimes
You don't want to eat the foods you should
For what ever reason sometimes
You don't want to go to bed on time
Just Remember
You've always got a choice to make

You're not just the person that you are today
You're not just the person that you were even yesterday
There's a superstar inside of you that you are going to become
If you get to know yourself
With all the love in your heart

For what ever reason sometimes
You don't want to listen to those who care
For what ever reason sometimes
You don't want to listen to those who've been there
Just Remember
You've always got a choice to make

Sometimes you've got to do things
You don't want to do
Even though you know you should
And in the long run, you'll be glad you did

And in the long run, you'll be glad you did
In the long run, you'll be glad
